THE COMMERCIAL PRINCIPLES GOVERNING THE ENGINEERING OF

THE COMMERCIAL PRINCIPLES GOVERNING THE ENGINEERING OF PUBLIC WEALTH REBATE BANKS as as "ROBIN HOOD BANKS".

Public Wealth Rebate Banks LAWFULLY SEIZE AND RECOVER WEALTH (Laxes, etc...) scolen by commot officials and others engaged in government organized come, and return it to the common people, the Public, to reimburse and revitable the common people (Public). These banks bring to mind the legendary character known as Robin Hood, who had the less rigorous more vigorous informal cavaser way of correcting the same social wrongs of Old England. This is the reason for referring to Public Wealth Rebate Banks by the term "Robin Hood Banks"; they paramountly represent the interests of "a government of the people, by the people, for the people". Governments are usually operated by people who oo not want to consider the needs of others. hence rule by force, not reason, too often with the result that power compis, and absolute power compots absolutely. Consequently, governments are not inclined to correct their own exits, and, to the contrary, tend to perpetuate their inchined to correct their own evis, and, to the contrary, tend to perpetuale their own evist, and especially to purish those who resist the evist of the government. Understandably, then, Public Weath Rebate Banks are PUBLIC INSTITUTIONS, necessarily founded and operated by non-government, self-appointed (42 USC 1986) public servants who operate as public estorily agents known as Public Probles, and always under the threat of government retabation. Public Weath Rebate Banks are operated: (1) pursuant to the Universal and Etemal Natural Lewis of Commerce, (2) pursuant to the Universal and Etemal Natural Lewis of Commerce, (2) pursuant to the Universal and Etemal Natural Seasonal Trother's keeper principle" suggested in 42 USC 1986 and in 18 USC (4) pursuant to the commercial fair market values suggested by 18 USC 241 and 18 USC 242, the fair market values to be levied in commerce against violations around the Public and 4s Constitutions, and especially against those violations. against the Public and its Constitutions, and especially against those violations committed by government officers and agents of the Public Trust, and (5) pursuant to the remuneration principles suggested by 42 USC 1994 and 18 USC pursuant to the remmeration principles suggested by 42 USC 1994 and 18 USC 1951, which clearly state that whatever the government compets the Citizen to do for society, pursuant to statutory law, less than outy in a foreign war, is labor in the ordinary sense, so the government must stand good for a componisation for that tabor in commerce or not expect the Citizen to senously obey the statutes of the government. Public Weath Rebate Banks keep a public record of all of their organizational bytains and commercial transactions, which the public can inspect and copy either during regular banking hours, or by ordering information to be sent to them without filing any formal requests for information Public Weath Rebate Banks are Chantable Public Trust Foundations engaged in generating, screening, processing, and directing. Commercial Affidavits of Obligation thrown as Commercial Lients. (A Common Law Lien is inferior to a Commercial It and Lien in that a Common Law Lien does not contain EXPLICIT Obligation known as Commercial Liens. (A Common Law Lien is infentor to a Commercial (Law) Lien in that a Common Law Lien does not contain EXPLICIT LEDGERING, hence raises upon the discretion of a Jury to decide the obligation.) Generally, Public Wealth Rebate Banks acquare their assets through lawful public claims made by way of Aridavids of Information (Command Complaints) (1st Amendment guaranteed petitions) against comust public officials, et al. who, by their failure to respond within 3 morths 190 days), some, by default, their public contempt, their public guals and their public sability. The intensic value of the human tabor of a population to amplify energy access, is represented by Population Notes or Allowance Notes, which are of the First Class of Notes. Commercial Notes are of the types or classes, namely, Population or Allowance Notes, and Promissory Notes.
