**Individual U.S.A. 2016 Presidential-Election Ballot**  
**Elector: Charles Stewart;**  
**of Sandy, Oregon, in Clackamas County, & Precinct 107.**  
**Last Up-Dated, 17-July-2016.**

~~~~~

I am transmitting this data in good-faith from the Consensus-Based Common-Law Sovereign Jurisdiction of the Responsibly-Self-Governing Organic-Body-Politic Community of my fellow Qualified-Electors & Constituents.

I am Not entangled through any minimal-contacts or legal-nexus with any Provisional/Municipal/De-Facto Jurisdiction from any Private/Corporate//Militarized/Emergency-War-Powers/Empirical/Majority-Rule/ Coercive form of U.S. Federal, State, or Local Governmental of inherently there-fore Limited-Jurisdiction.

I may be contacted at: charles@constitutionalgov.us ; & also at: 503-668-5091 .

I intend that this ballot be regarded by all other Qualified-Elector/Constituents as My Equal Right & Franchise with all others similar who Organically Constitute our American National Body-Politic; & this done is serious efforts to bring some sanity to the Selection of the “President of the USA” in the soon-up-coming 2016 Presidential-Election.

I petition my equals here-in to promptly declare any objections that they might have to retain the right to modify this ballot at any time that I might so choose. I declare that I may modify my ballot in real-time, moment-by-moment; & this all in such manners as are fully liberated from the obstructions of our nation's civil-government's “four-year presidential election cycle”.

I reserve the right to change my vote at any time that I so choose; & I affirm that I respect that all who participate here-in have all of the same right as those which I am here-by exercising.

Further; if any-one can make well-reasoned arguments to me that my votes here are not truly in the “Best Interests of our American People”; then I will correct my voting preferences to reflect their more enlightened perspectives; & I also will consider closely any arguments that any of my votes are some-how “internally-inconsistent”.
