

# **Biography**

## **of Charles Bruce Stewart.**

**Composed by Charles Bruce Stewart;**  
(Last Edit Completed in early August-2016; V-2.3.)

This biography is composed in efforts to help people to develop insights as to how most effectively they might be able to work with me; and I seek similar info and opportunities from others. Briefly; the work I and my associates are seeking to accomplish, is to purge our American nation of the war-mongering evil which presently infects it, & to establish truth, justice, safety, peace, & liberty, in that order, for the people here-in.

I am apprehensively assuming this tone of authority, because our American Patriot/Constitutionalist Movement is saturated with arrogantly loud-mouthed gurus who are using similar tones to mis-lead multitudes of honorable but naive Americans of into destruction. I, and a number of others, have worked very hard to develop our own personal clarity of vision concerning what actually needs to be done in order to advance these causes; yet we see very few others who have completed sufficient study of our modern social-reality so that that they might actually assist in these desperately needed efforts.

My preference would be to be in the woods, in fresh air and sunshine, or swimming in attempts to keep my crippled arthritic condition from getting worse. But the pressures of the current political/religious/spiritual-battle will not allow me this luxury.

My parents on both sides moved to Oregon in the late 1800's. I can trace my Stewart lineage back to the 1820's or so, in the Ohio/Illinois area. My parents moved from Oregon to Sitka Alaska in 1951. I was born there in August of 1954. I moved back to Oregon in 1988, to the city of Sandy, in Clackamas County, which is still my present town/city of residence.

During the time in which I was born, in Alaska, my mother wanted a son who was a jet-fighter-pilot, a razor-sharp reflexed fighting-machine, with complete American Patriotism. But then my mother started studying with "Jehovah's Witnesses" in about 1958. She shared these studies with me. There-in; I developed an appreciation for the Fundamental Principles of Biblical-Law.

My family moved to Oregon in 1977 for a few months. There, at the age of 17, I severely broke my left leg, in a motorcycle accident. The tibia & fibula were completely broken & disconnected. The medical doctors who re-set it, set it in a dysfunctional & deformed manner; with the edges of the bone breaks set side-by side, instead of end-to-end. This has caused one leg to be shorter than the other, & it has caused the 28 - 32 bones in my left foot to be unable to support my weight in a geometrically-balanced manner. One hip has become higher than the other; & my entire spine has been thrown out of balance. I am very angry at those medical doctors. I have asked them to re-set the bones on multiple occasions. They refuse to admit that this deformity is the source of my health problem. I am very angry at them. I am now on social security disability as a result of all of this, although my later diagnosis is a form of arthritis called "ankylosing spondylitis".

I find much relief through a vegetarian diet, & other naturopathic & herbal therapies. I consider myself an advanced scholar in nutrition. Medical schools do not teach nutrition. Law schools do not teach higher/constitutional-law. These are all merely symptoms of a much larger & deeper problem.

I was a “D” student in most of my high-school years. But in the few months in Scappoose Oregon, in 1977, before he wreck; I was getting A’s & B’s. That did me good. It proved I had the brains, but that the Alaska teachers were just prejudice against me.

I was baptized as a “Jehovah’s Witness” in 1978. My 20-years or so as a “Jehovah’s Witness” taught me more than the “Public Schools”. I learned to speak in front of an audience. I learned to “Out-Line” my speeches in advance. This “Out-Lining” skill is also extremely valuable in Composing Legal-Documents; or Manuscripts, and/or Books; because it teaches people to organize their thoughts in a reasonable & coherent manner.

Perhaps the most valuable skill I there-in developed, was the courage to go “Door-to-Door”, Talking to People about the “Kingdom of God” on this Earth. Very few people can do things like this. I can do these things.

But near 1972, the “Watchtower Bible & Tract Society” (the corporate/parent organization of the “Jehovah’s Witnesses”) did Prophecy on numerous occasions that “Armageddon” would soon come. They were hyping their loyal & trusting followers into passing-out all kinds of apocalyptic literature, to drag new members into their organization. When the first false prophecy failed to materialize, I confronted these leaders about it, & they said they had mis-calculated by a year or two; & to please stay with them & continue in the faithful service. I did that. Then the second prophecy passed without Armageddon occurring. I again confronted the elders. They told me that if I kept asking such confrontational questions, that my position as a ministerial-servant would be in danger. I tried to focus the discussion on the fact that made false prophecy twice in a row, now. They refused to engage discussion with me on that critical-point, but they shifted the subject over to boldly accusing me having a “Lack of Faith”. I wrote letters to the highest levels of the organization. They completely ignored my letters, at all higher levels.

At about the age of 24 I formally Wrote to the “Watchtower Bible & Tract Society”; & I there-in notified them that I was with-drawing my membership from their religious organization. I received no response.

At this time I retreated into the use of statutorily non-compliant drugs, mostly marijuana. Here-by; the vast Waste of all of my early formative-years became devistatingly apparent to me. Along with the “Watchtower Bible & Tract Society”, I blamed the “Public-School System”. Between these two, my young life was rendered very close to totally worthless. I was devastated. If I had not developed an over-riding faith in God, I would have been suicidal. I then adopted the belief that God had not provided any Solutions for the evils which afflict this planet.

From my reading of Lysander Spooner’s 1852 “Essay on the Trial by Jury”; I had developed a solid appreciation for “Common-Law”. But this gem of insight did not provide me with sufficient details to build a Social-Movement Strategy around it. And my still-held “Jehovah’s Witness” training, thirsted for precisely this. “God’s Kingdom on Earth” was Still a Reasonable Goal for me. It would just have to be accomplished with-out any assistance from the corrupted “Watchtower Bible & Tract Society”. And through my JW door-to-door ministry there-in, I knew fairly well than none of the other larger religious organizations were providing any realistic strategy for advancing “God’s Kingdom on this Earth”, either.

But I knew that in order to wrest power from the “Babylonian Whore” Governmental System; that something would have to be done to empower the common people. Around 1992, I learned of “Cable Access Television”. Here-under, I produced over 20 cable access television shows, under the title “The Participatory Democracy Project”. I arranged Twelve Panelists,

modeled on a Common-Law Jury, in a semi-circle before the television camera. Each of these people were prominent Political Activists in the Portland Oregon area. I tried very hard to balance them between left-wingers & right-wingers. I believe I was successful. The real enemy is the self-appointed elitists & leaders. The “Liberals” or the “Radical Right” are Not the Problem. It is the “Un-Natural Aristocrats”, as Jefferson called them, who are the Real Problem.

This was going well; significant progress was being made. Coalitions were being built which had the serious potential to dis-lodge the powers that be. But I got into some personal difficulties at the cable access television station. The cops were heavily on my back, for driving with-out a drivers license. And at that same time I learned of the “Christian Jural Society” in California; & “LeRoy Schweitzer” & the “Montana Freeman”.

Randy Lee & John Quade/Williams of the “Christian Jural Society” of California; made it intellectually clear to me that there were Linkages between the ancient “Common-Law”, & the Teachings of Christ/Messiah Jesus/Yeshuah. I had instinctive felt this, but this was the first time I had seen anyone bold enough to assert it; & to actually produce research which seemed to solidly back it up. This was enough to give me serious pause. The cable tv show was becoming a serious hassle. The requested funding was elusive. It was growing, but it was not economically able to support itself.

Then in about the summer of 1996; Karl & Sunny Klang gave me a Video of “LeRoy Michael, Schweitzer”; who was conducting a seminar in Montana in January 1996. He was in jail by the time I viewed his video; & his followers were being hunted like dangerous dogs by corrupted federal agents.

LeRoy Schweitzer’s video amazed me. Schweitzer explained how our American Constitutional-System of Government, has De-Centralized the Authority of Government down completely to the common people. He further explained how the State & Federal Constitutions Prohibited the Federal & State Governmental Authorities from Assuming Control of the vast majority of the affairs of the common people. Schweitzer explained how American Constitutional “Townships, Precincts, & Counties” are all Very Small, Accountable, & Locally Controllable “Common-Law Jurisdictions”. He explained how all of this was based on Biblical Law. I was elated.

Further, Schweitzer showed how to Lawfully Confront the corrupted government officers who were lawlessly usurping this un-constitutional authority over the people’s smaller communities. Schweitzer used mostly “Commercial-Law” Process; which I have avoided. What Schweitzer was doing there, is what got him & his fellow Freeman arrested; not because it was un-lawful, but because the agents of the evil-empire respond in an escalated & lawless manner.

But Schweitzer also showed how to use “Quo-Warranto” Complaints. This is one of the “Common-Law Writs”. This was the mechanism through which the “King of England” Demanded an Accounting from His “Pubic Servants” who worked in “His Civil-Government”. At the American Revolution, this very significant “Kingly Power” over the “Public Servants” with-in the Civil Government, was “De-Centralized” Down to the American People. “We the People” are “Joint Tenants in the Sovereignty”; and these are the precise words which were used in the early American US Supreme Court case, known as “Chisolm Vs Georgia”. This is dynamite. I stopped working on my cable-access television show, which again was becoming seriously burdensome, all so that I could devote my limited time/energy recourses to developing this new and theocratically-powerful field of research.

Shortly here-after, I presented “Constructive Notice of Treason” Documents to All Members of the “Oregon State Supreme Court”; the Governor; the Attorney General; the “House

& Sensate Judicial Committee”; & the “Oregon Law Commission”. This was a 20 to 30 page document, with over an inch thick stack of photo-copied supportive-documents.

These documents had clearly shocked the people who received it. It was obvious to me that no one had ever talked to these arrogant public-servants in this manner. The Chief Judge of Oregon’s Supreme Court was then named “Wallace Carson”; and I and my associates were invited to discuss the “Treason” of the State's Judicial Personnel with him. We recorded & transcribed the meetings, & they are available on the web.

There is much more that I could add; but, like with previous versions of this document, I am trying to quickly finish it soon, so that I may accommodate the needs of people with whom I am developing working relationships.
