

Township Social-Compact

“We the People” of _____ do hereby enter into this “Social-Compact” for the formation of this Township of either a “Local” or a “Special” Nature. Hereunder, we seek to Establish, Maintain & Perpetuate as “End-Goals” that Justice, Order, Liberty, Peace, Safety, & Happiness for all conscience-bound People within this Township, just as is stated in opening parts of most State and National “Constitution” documents. We seek these things by way of that Godly basis of Federalism as practiced by the Puritans. We proceed as stated in: :

“Encyclopedia of the American Constitution: Levy, Karst, & Mahoney; Claremont Graduate School, Ca. & U.S.C.-L.A.; McMillian Publishing Co., N.Y.; 1986: Federalism (Theory):

“Federal democracy is the authentic American contribution to democratic thought & republican government. Its conception represents a synthesis of the Puritan idea of the covenant relationship as the foundation of all proper human society & the constitutional ideas of the English natural rights school of the seventeenth & early eighteenth centuries. Contractual noncentralization - the structured dispersion of power among many centers whose legitimate authority is constitutionally guaranteed - is the key to the widespread & entrenched diffusion of power that remains the principle characteristic of & argument for federal democracy. Federal democracy is a composite notion that includes a strong religious component. The religious expression of federalism was brought to the United States through the theology of the Puritan, who viewed the world as organized through binding covenants that God had made with mankind, binding God and man into a lasting union and partnership to work for the redemption of the world

According to federal theology, all social and political relationships are derived from that original covenant. This theological perspective found its counterpart in congregationalism as the basis of church polity and the town meeting as the basis of civil polity. Thus communities of believers were required to organize themselves by covenant into congregations just as communities of citizens were required to organize themselves by covenant into towns. The entire structure of religious and political organization in New England reflected this application of a theological principle to social and political life

... The behavioral pattern resurfaced on every frontier ... in the wagon trains that crossed the plains, whose members compacted together to provide for their internal governance during the long trek westward.

We find that this precise process which we herein seek to establish is in harmony with those “Natural Laws” which Must Govern human sociological/political bodies-politic in order for their members to live in Peace. We find that this precise process was sought to be secured for us by the Framers of our State Constitution, the United States Constitution, Magna Charta, & by Christ Jesus, Moses, & “Almighty God”. Exodus 18: 14 - 26 & Deuteronomy 1: 9-18 both command “God’s People” to Establish “God’s” “Judgement” among themselves by way of setting up “Rulers over 10’s, 50’s, 100’s, & 1000’s”. The smaller 10 unit entities are the historical basis for what the modern Townships of America are modeled upon. The word Ten, Tithing, & Town are all historically related.

We find that our ability to access effective “Remedy” for “Injuries Done” is not presently available to us, nor is it possible for us to effectively secure this Constitutionally Guaranteed Right, without providing it for ourselves by way of this precise Process of invoking this “Township” organizational-structure. For further documentation on the Lawfulness of this process, please contact our “Town Constable” as listed below, or else go to the web-page links or send an email to the email-address as listed below.
