This is a follow up post to my conspiracy theory on the moderators on reddit that are in control of the main coronavirus subreddits, mainly [u/CLO Junkie](#). Please consider that my original post is basically part 1 and I encourage you to read it [here](#) before continuing so you are more informed.

Event 201 took place on October 18th, 2019. Event 201 is a high-level pandemic exercise that took place in New York, NY. The exercise illustrated areas where public/private partnerships will be necessary during the response to a severe pandemic in order to diminish large-scale economic and societal consequences. It was hosted by the John Hopkins Center for Health Security in partnership with the World Economic Forum and the Bill and Melinda Gates Foundation. More can be found on event 201 [here](#)

On that same day, CISM Military World Games held an opening ceremony in Wuhan, China. It's the largest military sports event held in China and consists of 10,000 military athletes from 110 different nations. More on that [here](#)

Fast forward 6 weeks later and we have the first reported case of coronavirus infection which was on [December 1st, 2019](#). While the incubation period is estimated to be 14 days, there are multiple reports that say it may be much [longer](#). It also seems to depend on the person as some will have less of an incubation period than others.

Now go back 6 weeks to October 18th. One day after event 201 [u/CLO Junkie](#) created a reddit [account](#). Since my original post about the moderators [on the main coronavirus subreddits](#), the [censorship and suppression of information from regular users](#) on those subreddits has only become worse. Ironically, so has the censorship on social media overall which there is the reason behind that below.

[The WHO stated that they will be asking Google, Twitter, YouTube, Facebook, and others to heavily moderate what information comes out on the virus. They only want you to read the information that they put out themselves.](#) For instance if your search coronavirus on twitter the [first thing that will pop up at the top](#) is a message from the WHO directing you to read the facts from the CDC. Also, there is the [WHO banner that is now appearing under most coronavirus youtube videos](#) ... not to mention that those [youtube videos no matter how scientific and fact based ... are being demonitized](#). So [no matter how real you thought that video of the piles of bodies you saw in a van or hospital in China are](#), the [WHO considers it fake news](#). The WHO continues to praise China for their efforts in controlling the virus.

Now [what are the chances](#) that...

1. [Event 201 takes place on October 18th](#)

2. The same day 10,000 military members from 110 nations are in Wuhan, ground zero of the outbreak
3. u/CLO Junkie makes a reddit account one day after, makes one post, and then lays doormat for months until almost insantly taking control of all subreddits on the coronavirus once mainstream news of the virus appears. Then works 24/7 to heavily moderate and suppress the information of all users on what's going on in China.
4. The first case of coronavirus is filed on December 1st, 6 weeks after these events, with the patient having zero connection with the Wuhan Market but was living in Wuhan...

To me and this is just my opinion. There is something behind this virus. Based on my findings and the evidence, this is a man made bioweapon that was intentionally released into the public in Wuhan, China during the CISM Military World Games. Some high power people (globalists) or maybe even another nations military or someone at the very least ... saw this as a the perfect covert opportunity to spread the virus in China. Why China? Well there are many reasons. China has some of the worst health problems in the world with over one million people dying each year just to air pollution alone, not to mention half their water supply being contaminated.

Depending on how it was released into the public (whether it was intentionally given to one person or released in the air, food, ect) it may have taken some time (the 6 weeks) until the first victim became ill enough to seek medical treatment.

Take this with a grain of salt but there are way too many coincidences happening at the same time in the same place.

Also, this whole outbreak was pretty much predicted in the 1981 novel "The Eyes of Darkness"

Is someone playing event 201 in real life? This novel may have helped sparked their idea of the starting location and the events that shortly followed...
