The story on this investigative documentary starts with a simple traffic "incident" leading to perjured testimony by a Novi, Michigan police officer, and perjury of oath by the so-called "magistrate" holding what was supposed to be an "informal" hearing but only revealing after the fact that a "formal" outcome IN COMMERCE was to result. While the facts show the clear commission of insurance fraud by the reporting "officer," the magistrate turned the person rear-ended into the "responsible" party of the case, while claiming only that the Michigan law authorized to do so because "driving is a privilege."

This story uncovers racketeering and a crime syndicate operating blatantly in the 52nd District Court of Oakland County, Michigan, where securities fraud is also exposed. See how people driving through Novi, Michigan are presented by a corrupt city (plaintiff) police department ("co-plaintiffs" in "court" and FOIA crimes of "deprivation of rights under color of law"), a "court" operating as a financial crimes enterprise, a county of overseers who turn a blind eye and use unscrupulous tactics to avoid answering FOIA demands for documents, and a corporate "State" led by and infiltrated by domestic terrorists.

While you might say, "What else is new?" at least the facts presented herein are supported and verifiable evidence of the layered racketeering and corruption schemes operating at all levels of Michigan "government" mirroring what happened with the stonewalling of the "Flint Water Crisis" and subsequent witch-hunt for which of the many criminals would go down on manslaughter and other charges related to that debacle.

DISCLAIMER: This purpose of this video is not to advocate violence as the only alternative left against domestic terrorists usurping government offices; but instead to demonstrate precisely how few options average Americans have left since all civil remedies are being short-circuited and undermined so as to be rendered ineffectual against what is now being referred to as the "police state," "fascism," and treason by those otherwise in elected and appointed positions of ("corporate") government power.
