

Introduction to: “Coleman County Community Currency”;

**as designed for the Small-Businesses & Common-People of Coleman County.
Presented at meeting held on 2022-September-06; Thursday, beginning at 5:30-pm;
by the Coleman County Chamber of Commerce & Business-People’s Association.**

Business Owners & Managers of Coleman County; my name is Charles Stewart, I am 68 years old, I have resided in Coleman for three years; & I have spent decades studying American Constitutional Law, Common Law, Biblical Torah-Law, Commercial Law; & Alternative Currency, Banking, & Economic Systems. I regularly communicate with other scholars & activists in these areas; & I can provide character-witnesses as needed. I have introduced these ideas to the Coleman County-Commissioners & the Coleman City-Council; & I now wish to share them with you.

I here wish to first point-out, that, all across the USA, in Texas, & in Coleman County; our Small Businesses & Common People are Facing Very Serious “Economic Difficulties”; & that, a very small number of Aristocratic Executives & Share-Holders in Large-Corporations are Un-Fairly Influencing Government-Officials, to Gather Very Large Amounts of Economic-Wealth for Their Own Private Estates, & that, they are there-by Leaving Close To Nothing for our American Small-Businesses & Common-People. In response here-to; our Public-Servants (at all levels of Government) have Failed to Present any Meaningful Solutions to these Very Serious Economic Difficulties; & a clear majority of them seem to fail to recognize, that, this problem even exists.

But, the good news is, under our Traditional & Well-Settled Systems of American & Texas “Constitutional Law”, as codified in Texas Uniform-Commercial-Code, Our Small Business Owners & Common People have Powerful Rights to Access Local-Community-Wealth as a Source of Local-Community-Credit; & to there-by “Turn the Tables” on those Dysfunctional Public-Servants & Greedy Aristocrats.

The Really Powerful Part of this process, is that, These Alternative-Currency Commercial-Instruments May Be Used to Pay or Discharge Debts of All Sorts; Including Bank-Loans, City Utility-Bills, City & County Taxes, Fines, & Fees; State Taxes & Fees; & Federal IRS Taxes. All Debts May be Paid/Discharged through the Responsible Use of these Alternative-Currency Commercial-Instruments. All Judicial-Officers & Courts who might be asked to Adjudicate otherwise by Debt-Collectors, are Duty-Bound to Adjudicate, that, the Debt for which these Commercial-Instruments have been Tendered, there-by, has been Paid/Discharged. This is the Original-Intent behind the Uniform-Commercial-Code, as adopted in virtually Every State in the USA.

Other documents are available which explain all of this in much greater detail. Copies of these Texas State Commercial-Code Statutes are available. What is here-by being promoted in Coleman County, can be used to provide Economic Relief & Support for Small Businesses & Common-People All Across the USA.

By my-self; I am not capable of bringing this Economic Relief & Support to our Small-Businesses & Common-People in Coleman County. I need people like you to Recognize the Value of these concepts, to Discuss with me the Practical Application of these ideas in our local community here; & there-after, to actually Begin Using this Alternative-Currency.

In accompaniment here-with, please find other documents which are designed as Samples of what this “Coleman County Community Currency” should actually look like.

Please Communicate about how best to use these tools to provide Economic Relief & Support for our Small-Businesses & Common-People in Coleman County.

**Charles Stewart; 1117 North Neches Street, in Coleman Texas.
